

Graphite Market Service

Get accurate analysis of the graphite supply-demand balance with our deep knowledge of the complex interactions between battery and steel market demand, ESG pressures and Chinese supply-side trends

Only market offering to include up-to-date information and price forecasts for **synthetic graphite, natural graphite, lithium-ion batteries, refractories, electrodes and steel in one product**

Prices for **10+** graphite products including flake concentrates and battery-grades intermediates

40+ countries analysed for historical and forecast supply

2050 forecast horizon

10+ market segments analysed

Near-term outlooks to **2032**

Use it to:

Analyse the market balance for graphite including the availability of different graphite products & grades

Discover how the energy transition is changing the shape of the graphite industry

Understand what opportunities and barriers to entry exist for graphite supply

Explore how rising demand and supply-side pressures are affecting graphite prices

Unravel the complex supply and demand trends of natural and synthetic graphite

Screen, identify, and evaluate growth and acquisition opportunities
